

Every Child Deserves to *Flourish*

Where Ancient Gurukul Wisdom Meets
Modern Neuroscience

Confident Minds. Compassionate Hearts. Future-Ready Learners

ADMISSIONS OPEN
2027–28

Welcome to Astrid

Education That Shapes the Whole Child

Astrid was born out of a vision to redefine elementary education. We bridge the gap between traditional learning and modern science, blending the highly disciplined, nature-integrated wisdom of ancient Gurukuls with cutting-edge neurological research.

Our Vision:

To raise confident, compassionate human beings, where strength of heart grows as tall as strength of mind.

Because well-being isn't separate from academic rigor – it's the foundation for it.

Our Mission:

To deliver a scientifically designed Neuro Gurukul curriculum that integrates brain-compatible learning techniques, value-based character building, and creative academic excellence.

To teach with rigor, coach with heart, and build community with purpose, bringing our Neuro Gurukul approach to life, so that every child grows strong in mind and heart, together.

The Astrid Difference

Where Ancient Wisdom Meets Modern Neuroscience

Children don't just need knowledge.
They need resilience. They need empathy. They need purpose.

At Astrid, every lesson is designed to develop the four essential dimensions of lifelong success:

Intellectual
Quotient (IQ)

Develop curiosity,
critical thinking
and problem-solving

Emotional
Quotient (EQ)

Build emotional
intelligence,
confidence and
self-awareness

Social Quotient
(SoQ)

Learn collaboration,
leadership and
responsibility

Spiritual
Quotient (SQ)

Develop values,
gratitude and
purpose

These four pillars are seamlessly woven into
everyday learning, not taught as separate subjects.

Academics Designed for Life

Beyond Marks. Beyond Exams.

Astrid follows the CBSE curriculum, enriched through the **Neuro Gurukul Approach**.

Our classrooms encourage:

Inquiry-based learning

Spark curiosity and empower children to ask, explore and discover.

Experiential Education

Hands-on experiences that make learning meaningful and memorable.

Design Thinking

Encouraging empathy, creativity and innovative solutions.

Innovation

Inspiring original ideas and the courage to turn them into reality.

Creative problem-solving

Building analytical skills to solve real-world challenges.

Mindfulness

Cultivating focus, emotional balance and inner well-being.

Collaborative learning

Learning together, respecting differences and achieving shared goals.

Because we believe real education prepares children
not only for examinations but also **for life**.

THE RAISE WAY

The Values That Shape Every Child

At Astrid, education is not only about what children learn, it is about who they become. Our core values inspire, guide, and empower every learner to grow with purpose, lead with empathy, and ignite hope within their hearts and communities.

R

RESPECT

We nurture empathy, kindness, and mutual respect for people, ideas, cultures, and the environment. Every child learns that true leadership begins with valuing others.

**A**

AUTHENTICITY

We encourage children to be themselves with the eyes, embrace their individuality, and communicate with honesty and courage.

**I**

INTEGRITY

Doing the right thing—even when no one is watching—is a habit we cultivate daily. Our students choose honesty, accountability, and ethical decision-making.

**S**

SPIRIT

We inspire curiosity, resilience, gratitude, and a lifelong love for learning. Every challenge is viewed as an opportunity to grow.

**E**

EXCELLENCE

Excellence is not about perfection. It is about striving to be better every day. We encourage every child to value continuous improvement in academics, character, creativity, and leadership.

OUR PROMISE

To teach with rigor, coach with heart, and build community with purpose, bringing our NeuroGurukul approach to life, so that every child grows strong in mind and heart, together.

Spaces That Inspire Discovery

Purpose-Built Learning Environments

At Astrid, every learning space is intentionally designed to spark curiosity, encourage collaboration, and support holistic development. From technology-enabled classrooms to nature-inspired learning environments, every corner of our campus nurtures exploration and creativity.

Innovation & STEM

- STEM & AI Labs
- Robotics & Makers Lab
- Science Laboratories
- Computer & Digital Learning Lab

Creative Expression

- Art Studio
- Music & Performing Arts
- Storytelling Spaces
- Creative Activity Zones

Wellness & Sports

- Indoor & Outdoor Sports
- Yoga & Mindfulness Spaces
- Wellness Rooms
- Green Campus

Research & Collaboration

- Interactive Library
- Reading Corners
- Project Rooms
- Collaborative Learning Spaces

What We Refuse to Do

At Astrid, our philosophy is defined not only by what we promise, but also by what we choose not to do.

We refuse to **teach** only for exams.

We nurture thinkers, not just test-takers.

We refuse to **ignore** curiosity.

Questions are celebrated because curiosity drives meaningful learning.

We refuse to **ignore** well-being.

Children learn best when they feel safe, supported and understood.

We refuse to **measure** progress only through marks.

We value creativity, collaboration, kindness and character as much as academic success.

At Astrid, we don't just shape achievers. We shape **compassionate, confident and future-ready** human beings.
